

Management Team

The superintendent's management team has been organized on the premise that the multiple responsibilities of the Superintendent of the Wallingford Public Schools can be better served by establishing a means which will permit the best thinking of all staff members to be brought to bear on school problems. Although the Board of Education and the superintendent cannot absolve themselves from legally constituted responsibilities for the establishment of policy and its administration, the team provides for a two-way flow of information and effective action resulting from group thinking.

The members of the team act in an advisory capacity. Their mission is to gather ideas, to present reactions of district personnel, to express opinions, and to interpret school policy to other staff members in the light of detailed information they receive through discussions in meetings.

The members of the management team include the Superintendent, Director of Human Resources, Assistant Superintendent for Instruction, Director of Pupil Personnel Services, Business Manager, Supervisor of Buildings and Grounds, Director of Food Service Department, and Director of Information Technology Services.
