

Assignment of Administrative Personnel

The Board of Education has full authority over the appointment and assignment of all administrative personnel.

The Board of Education, recognizing the advantages to be gained by the reassignment of personnel, states its intention to reassign administrators when deemed necessary in the best interest of the school system and or individuals. Consequently, the community should realize and understand that administrators will be reassigned periodically and that administrators should not expect to stay at the same schools throughout their administrative careers in Wallingford.
