

**Grants**

In order to offer the best educational opportunities possible for children of the district, the Board will seek as many sources of revenue as possible to supplement the funds provided through local taxation and the basic aid offered by the state. All grant applications on behalf of the district must be consistent with and supportive of the Board's goals for student learning.

Permission must be received from the Board before application is made for any grant that will impact the Board's budget in the current year or is anticipated to impact the budget in future years. The Board shall be informed of all other grant applications made on behalf of the district and will also be notified of all grants received by the district.

The superintendent is authorized to sign all reports required by grants.
