

Equal Educational Opportunities

The policy of the Wallingford Board of Education shall be to assure the right of all students to pursue a course of study designed to develop their academic and vocational talents to the fullest.

Discrimination prevents individuals from achieving their full human potential. Equal educational opportunities shall, therefore, be afforded each student throughout the course of his/her experience within the system without regard to race, gender, religion, national origin, socioeconomic status, disability, and/or marital status.

Policy Approved: 4/8/85

Policy Revised: 6/15/98
