

Senior Early Release

To permit seniors experience in assuming personal responsibility for handling their own time and study hours, the administration may grant them the privilege of leaving school grounds during a study period when such period falls last in the day. Students granted this privilege must leave the school building and grounds at the beginning of the last period.

To be eligible for early release, students must have written parental permission on file in the main office.

Policy Approved: 4/8/85

Policy Revised: 5/19/97
