**HOME AND SCHOOL COMMUNICATION AND SUPPORT**

---

**Teacher E-Mail Addresses:** All teachers at this school have been issued e-mail addresses.

---

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

At Moses Y. Beach Elementary School, we are committed to working with the parents to provide the best learning opportunities for their children. Our PTAC, a Parent Teacher Advisory Council, schedules agenda items include the planning, review, and improvement of school programs. Our PTO hosts several family nights sponsored to unite families and make connections to school personnel and programs that help advance student achievement. The school also provides a monthly newsletter, which routinely includes information from various school staff members on ways to support students at home. Our newsletters are published monthly (pertinent sections in Spanish) as a means to support parents in assisting their children with their academics at home. MYB hosts a series of parent workshops throughout the school year. These covered a myriad of reading related themes and topics. Teachers send home classroom newsletters and important information is included on their websites, in addition to the regular use of email communication. MYB has also taken advantage of newer communication technology and has implemented the use of the social networking site Twitter (@mosesybeach) to share pertinent and timely information for parents. Parents are also welcomed to share lunch with their children in our cafeteria and volunteer in many ways including: in classrooms, chaperoning field trips, book fairs, and sponsoring cultural arts programs.

### EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Moses Y. Beach Elementary School has a bilingual teacher and a bilingual paraprofessional. They work with the students to help them with basic skills in English and Spanish, and with the curriculum. The bilingual teacher meets with parents and conferences with them and their child's classroom teacher. During major school events, the teacher and paraprofessional translate information for parents to help them help their children with schoolwork. The school also coordinates with the library in offering a Homework Club for children with a bilingual tutor. We have an ESL teacher, and three Interventionists. MYB developed a school motto that is shared each morning during daily announcements by students. Each morning, students remind their peers to be tolerant and respectful of each other. Their inspiration serves to establish a culture of respect and a community that cares. The school motto charges students with finding and sharing examples of what it looks like to be a tolerant, respectful citizen that demonstrates good character. MYB has diverse cultures across the student population. As a result, the children have the opportunity to interact with other children from various racial, ethnic, and economic backgrounds daily.

**SCHOOL IMPROVEMENT PLANS AND ACTIVITIES**

---

The following narrative was submitted by this school.

Moses Y. Beach faculty members created professional goals aligned with the district and school improvement plans. Teachers create Student Learning Objectives to improve their professional practice and ultimately student achievement. Each building principal received a specific allocation for professional development and was charged with the responsibility of using the money for school improvement. Teachers are provided common planning times at each grade level to plan and develop grade level approaches to improving instruction. As a faculty, the concept of Professional Learning Communities was explored and each team established a working protocol for effective teaming. This set the stage for the exploration of best practices outlined in the Connecticut Accountability for Learning Initiative. School Climate Team members were trained in Responsive Classroom and a series of in-house PD offerings were shared with teachers. The school reached a consensus in subscribing to the philosophies within the Responsive Classroom approach. Monthly Town Meetings are hosted where students celebrate the collective success as a school community. Ongoing training is scheduled for staff.

**SUPPLEMENTAL SCHOOL INFORMATION**

---

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

In keeping with our school improvement initiatives, teachers were trained in the use of Scantron and Excel to review and evaluate data on common assessments. Teachers were able to meet collaboratively and plan instruction based on student need. Clearly defined goals were set as a result of this data mining effort. In using the SRBI process, teachers continued to progress monitor all students showing signs of struggling in a given area. Intervention teachers are trained in the use of AIMSweb and students in need of intervention are identified and monitored closely throughout the year. Screenings for all students are conducted three times per year and an inventory of at-risk students is created to inform instructional goals for those students throughout the year.
