HOME AND SCHOOL COMMUNICATION AND SUPPORT

Teacher E-Mail Addresses: All teachers at this school have been issued e-mail addresses.

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

Communication between school and home is a critical component to our academic success at Yalesville Elementary School. The teachers and staff are steadfast in their efforts to provide parents with opportunities to stay connected and become actively involved in their children's education. They all have e-mail addresses and this proves to be a very convenient manner for parents to communicate with teachers and keep them informed regarding class assignments and lessons. Administration regularly sends EBlasts called the Gator News, to celebrate our accomplishments and give parents constant updates on our educationally rich environment, as well as the school's policies and procedures. We have a webpage that provides parents and community members with a snapshot of our daily life and highlights all of the wonderful events at Yalesville. In addition, many students in the school have daily/weekly communication journals to help increase parent communication and involvement. Parent support, both during school and after school, is also critical to our success. Our media specialist has a core team of volunteers that works in the library and assists students in selecting independent reading materials on a daily basis. Yalesville receives tremendous support from the very active Parent Teacher Organization (PTO). Many parents volunteer to support and sponsor various child-centered activities such as book fairs, our annual Field Day, the Monster Mash and our parent/child events. These events help build community within the school between the staff, parents and students. Our PTO uses EBlasts and Facebook as tools to keep the school and home connected, as well. We also have a Parent-Teacher Advisory Council (PTAC) that work in concert to discuss educational issues, provide parents with a lens into the school day and make them part of the decision-making process. Many parents have a stake in our key educational decisions, and parents are constantly informed of our school goals and progress. The PTAC meetings, for example, are a venue for parents to hear presentations by the principal from a variety of topics such as; school goals, CMT results, character education, community relations/partnerships, etc. Each fall and spring we conduct evening conferences for parents who cannot attend conferences during the day. These conferences are well attended, ensuring our appreciation for the level of interest by families in their children's progress. We are so proud of our school and its resources and share this pride with our community!

EFFORTS TO REDUCE RACIAL, ETHNIC AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Yalesville Elementary School is committed to reduce racial, ethnic and economic isolation. Many of the teachers and our media specialist have made efforts to purchase materials about different cultures and races. These resources are available to all students. In addition, our core curriculum incorporates many multicultural activities and resources. We implement "Project Wisdom" each day using words of wisdom to deliver a poignant message to our students and staff each day. Teachers use these messages to supplement their social education on a daily basis, use the program to facilitate weekly journaling, and tie the monthly themes into our culture. Yalesville had a successful year with the "Fill Your Bucket" program – incorporating acceptance and other essential character traits through activities and incentives to always be your best. Our PTO continues to pursue cultural arts programs for the entire school. They are both entertaining and educational. We also have classrooms committed to pen pals in another community in Connecticut. Our staff is dedicated to finding further ways to reduce racial, ethnic and economic isolation in the future.

SCHOOL IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this school.

Yalesville Elementary School developed SMART goals to improve student performance with input from the staff after reviewing assessment data gathered throughout the previous school year. A concerted effort to improve reading and math instruction continued this year with the focus on the Common Core State Standards (CCSS). The new reading program in grades three through five was a valuable resource for teachers and the requirement of the two hour literacy block made daily, uninterrupted reading/writing instruction a reality. In addition, the district began the transition to the common core math curriculum. Teachers in grades three through five changed their mindsets for math instruction and each classroom became student-focused with children working on critical thinking problems based on real-life situations. Every day, we focused on reading or math remediation and enrichment. This instruction was delivered during our forty minute intervention block. We utilized our interventionists and ancillary staff to provide remediation for the students who required additional support. Our teachers in grades three through five were given common planning time to collaborate in order to provide consistent instruction across the grade level. Our data teams continued to collect and analyze assessment data throughout the year. The teams included staff members from each grade level, as well as specialists, resource teachers, interventionists, and support staff. They utilized the information they extracted to identify strategies to drive future instruction. Through this collaboration differentiated lessons were planned and implemented to meet the needs of all students in the classrooms. Lessons were designed to align with grade level curriculum. We plan on working on common assessments, data collection and analysis, and creating a love of life-long learning in the future through a focused action plan with timeliness and results-oriented decisions.

SUPPLEMENTAL SCHOOL INFORMATION

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

Yalesville Elementary School continues to grow as a community. The teachers and staff in this building are individually and collectively committed to each student's success. We also have a wonderfully active Parent Teacher Organization which provides many educational and cultural resources and programs for our students. They often grant funds to the teachers and school to enhance learning and make it fun. We also celebrate our after-school enrichment program, offered in the spring, which provides students with various opportunities to learn about extra-curricular topics, such as; cooking, knitting, jewelry making, etc. It was a tremendous success! Other stellar events we are extremely proud of include, but are not limited to; our Back to School picnic which features food, music and fun to celebrate the New Year; our Field Day which gives all our students a chance to enjoy themselves in a more relaxed school setting; and our trip to Nature's Classroom for our fifth grade students who are looking for an alternate way to study science and social studies. All in all, this is a wonderful school, and Yalesville continues to SHINE brighter each day!
