HOME AND SCHOOL COMMUNICATION AND SUPPORT

Teacher E-Mail Addresses: All teachers at this school have been issued e-mail addresses.

Online Homework Information: A portion of the school's website is devoted to homework pages.

The following narrative about how this school promotes and supports parental involvement was submitted by this school.

We provide an array of communication conduits for parents beginning with computer generated progress reports and marking period reports eight times per year. In addition, we host evening conferences in the spring and in the fall. This year the Dag Hammarskjold Middle School Compensatory Education Department celebrated its first family fun night to promote literacy and to introduce the new family resource center. Families were able to learn about and play games that help promote literacy, problem solving, and logical thinking. In addition, each child received a book to take home and parents received a packet of materials to help them help their children to be successful in school. Parents have an opportunity to provide input to the school administration via the Parent Teacher Advisory Council. This is an advisory committee that deals with issues ranging from budget to new programs. Students are provided with a comprehensive homework assignment/student handbook that serves as a tool for two-way communication between home and school. The school website is utilized for posting information messages from the office as well as suggestions for parents ranging from providing homework support to encouraging and supporting reading.

SCHOOL DIVERSITY

Open Choice: 7 student(s) attended this school as part of the Open Choice program. Open Choice brings students from urban areas to attend school in suburban or rural towns, and students from non-urban areas to attend city schools.

Non-English Home Language: 4.5% of this school's students (excluding prekindergarten students) come from homes where English is not the primary language. The number of non-English home languages is 7.

EFFORTS TO REDUCE RACIAL, ETHNIC, AND ECONOMIC ISOLATION

Below is the description submitted by this school of how it provides educational opportunities for its students to interact with students and teachers from diverse racial, ethnic, and economic backgrounds.

Dag Hammarskjold Middle School is engaged in several efforts to reduce racial, ethnic, and economic isolation. There are more than 700 students from diverse backgrounds attending Dag. Our district participates in Open Choice, an interdistrict partnership with the public schools in New Haven, CT. Open Choice is a program that provides inner-city children the opportunity to attend Wallingford schools. The purpose of this program is to encourage more ethnic and racial diversity while at the same time, reducing isolation.

Wallingford also has a sizeable Hispanic population. The Spanish Community of Wallingford (SCOW) plays an important role at Dag. Representatives at SCOW provide support between families and the school. Many of our students come from homes where Spanish is the primary language spoken in the home. This organization is critical as it enhances the family/community and school partnership.

In the classroom, in both Reader's and Writer's Workshop, Diversity, is a recurring theme that is explored. Prejudice, racism, stereotypes, and more are investigated through literature and through the written word. Students write letters to the editor on ways to reduce prejudice, and they write speeches on topics such as ways to eliminate bullying or ways to promote/celebrate diversity.

Additionally, students from Dag take part in the Area Cooperative Educational Services (ACES)/Anti-Defamation League's inter-district Prudence Crandall program each year, whereby students from all backgrounds and skill levels engage in a series of workshops and meals with children from other towns and cities. More than 40 children take part in Wallingford's town wide Diversity Day which takes place in March. This festive celebration draws several hundred visitors to Choate Rosemary Hall, and our Dag students ask visitors to embrace and sign an anti-bullying pledge (written by our students). This same pledge is read to the entire school on Monday mornings.

Dag's PTO also sponsors many multicultural assemblies and programs that encourage ethnic and cultural diversity.

SCHOOL IMPROVEMENT PLANS AND ACTIVITIES

The following narrative was submitted by this school.

Using data to drive instruction continues as a moving force at our school. Teachers are provided Connecticut Mastery Test (CMT) data prior to the start of school so that they can use that information to determine areas of focus in their instruction. This school-wide effort has paid dividends regarding student performance on the CMT and achieving Adequate Yearly Progress (AYP).

Over the last three years we have implemented a new mathematics program in sixth through eighth grades. Our current program aligns with state and national standards and has a strong emphasis on conceptual understanding at each grade level. Special Education teachers work closely with the team teachers to tailor instruction and assessment so that each child has the opportunity to be successful.

We have also developed an exchange with the Unified Arts, Physical Education and World Language teachers in order to maximize instruction of historically low performing areas in mathematics, i.e. fractional computation. In addition each of the above disciplines is give a list of mathematical vocabulary so that students are not only exposed to a mathematical topic, (say in cooking or art class), but are also consistently reinforced with proper terminology. We have also made strides regarding professional development where teaching teams along with their support staff have worked together with differentiated instruction and strategies for writing.

SUPPLEMENTAL SCHOOL INFORMATION

The space below was optionally used by this school to describe aspects of the school not presented elsewhere in the profile.

Dag Hammarskjold Middle School continues to develop programs and extra-curricular activities that invite learners of all abilities to participate. Afterschool programs, created by teachers and paraprofessionals, run the gamut from nutrition and cooking to crocheting to the ever-popular bowling league. There is also an afterschool tutoring program for students who need help reaching goal on the CMT's.

Students in our school enrichment program, Student & Enrichment Program and STEP take part in the statewide Mock Trial events hosted by the Connecticut Consortium for Law and Civil Education (CCLCE). Our Physical Education staff runs a popular and competitive sports program that partners students with physical and/or intellectual disabilities with other children, with eager participation by all.

The student council at our school has participated in various activities to help the community and improve school climate. For example, in December the students at Dag raised over 9,000 food items for Holiday for Giving in Wallingford which helped feed many families in the community over the holiday season. In addition, our school participated in Pennies for Patients for the Leukemia Society. Through this effort, our school raised close to \$4,000.00 to specifically help children in our community fight this disease. Throughout these efforts, students banded together to help raise the funds or food necessary to help those in need. Overall, these activities have made students aware of those less fortunate and have promoted a supportive and nurturing school atmosphere at Dag Hammarskjold Middle School.

Dag's staff continually seeks to improve its existing programs and identify new areas to further reduce barriers to learning and improve the school climate.
